Work Experience

Elements, Inc., *Software Developer*   8/2008 – 12/2011

– Developed content management and reporting software for use in franchise, health care, real estate, and private equity industries. Reported directly to VP.
– Consolidated company framework into single codebase. Reduced software complexity, decreased development time needed for updates, and increased profitability.
– Refactored company framework to support customization through a plugin architecture, and improved coding standards, while maintaining backwards compatibility.
– Created utilities to automate data migration, daily builds, and SEO reports.
– Worked on proprietary franchise oriented CMS which generated thousands of search engine optimized location based websites.

Verve Internet Solutions, *Web Developer*   12/2007 – 8/2008

– Worked directly with non-profits in the Philadelphia area to provide technical support, maintenance, content updates, and website enhancements.
– Developed features for custom CMS, performed maintenance on legacy projects, and produced websites using code generation. Reported directly to VP.

Austin District Music Teachers Association, *Web Developer*   5/2008 – 9/2008

– Developed online portal to schedule events, manage student enrollment, and generate PDFs for approximately 125 teachers.

Eshilon Design Inc., *Web Production Assistant*   1/2008 – 3/2008

– Created cross-browser compatible XHTML/CSS templates from Photoshop PSDs that comply with accessibility and Section 508 standards.

Central High School, *Technical Assistant & Web Developer*   9/2005 – 7/2006

– Volunteered with IT department to manage computer labs, diagnose networking issues, and provide technical support for approximately 150 faculty members and 2,300 students.
– Redesigned website to increase student engagement and developed content management system which featured ACLs, workflow, and extensive logging.

Technical Skills

Languages: C#/VB .NET, MS SQL, MySQL, PHP, Python, Java, JavaScript, Flex, XSLT, LaTeX
Software: Microsoft Visual Studio, SSMS, Photoshop, Flash
Source Control: Perforce, Subversion, Git

Additional Information

- **Pennsylvania Governor's School for Information:** (2005) Studied IT & CS with approximately 50 other High School sophomores for a summer at Drexel University.
